

EVERY WOMAN DESERVES TO BE HEARD

Hello,

In honor of International #WomensDay (March 8) and Women's History Month (all of March), we wanted to reach out and share how we're working with women and children — and their families and communities — to combat the issues surrounding gender inequality in remote rural India.

In 2014, when you saw headlines like "[India's Shame: Women's Rights. The state of women's rights in India is deplorable](#)," you voiced your outrage and concern, and we responded. **We do what we do because of you, we care about what you care about, and your message was loud and clear.**

Female autonomy continues to be restricted throughout much of India, with cultural resistance particularly prevalent in remote rural communities. Gender inequality and inequity in India affects not only financial opportunities for women, but also their health, education, and well-being, making it extremely difficult to establish their own security and autonomy.

Share & Care's Women Empowerment programs have already created amazing Before & After stories of women emerging from poverty, learning new skills, and gaining the confidence to protect herself and to create a better life for herself and her family. Together, we can create more success stories.

BEFORE: With aid from our trusted NGOs on the ground, these four beautiful, amazing women participated in our Enhanced Livelihood Project. [Click here to see their After pictures.](#)

We Want to Hear From You

There are more women and more villages that need your help to provide them with valuable, life-changing education and training to break free of the mindset of gender inequality. You can help make that happen. With your help, we can continue to create real change for women and girls who deserve to feel safe, honored, and empowered.

Make a donation today and we'll share your message in our **Women Empowerment Honor Roll** (optional during donation checkout) in support of gender equality for women living in rural India, and around the world!

HELP EMPOWER WOMEN & CHILDREN OF RURAL INDIA TO FIND THEIR OWN VOICES

Self Defense & Sexual Abuse Prevention

Violence against women exists in many different forms and statistics show it is on the rise. Teaching self-defense skills to women will not only make a significant difference in prevention of violence, but will also help women to become self-confident.

Female Equality & Equity

Gender equality is unthinkable for many in India. A critical aspect of promoting gender equality is the empowerment of women, with a focus on identifying and redressing power imbalances and giving women more autonomy to manage their own lives.

Livelihood Enhancement

True female empowerment means empowering a woman so that she can follow her dream to succeed in whichever field she decides on. We are providing direct access to the training and skills women can use to pursue her dreams.

Today I will ...
