

THIS CHILD FACES A FUTURE OF DAILY LABOR

... but it doesn't have to be that way.

Hello `[[first_name]]`,

Did you know over 40% of Indian students drop out of school before reaching 8th grade? (In poor rural areas, that percentage is even higher.) These students often face higher rates of discrimination, exhibit lower self-confidence than their educated peers, and grow to be adults who are unqualified for most professions. They become trapped in the same cycle of poverty their families have faced for generations.

That's why we created [Educate 2 Success](#), a program providing resources for students who are at risk of dropping out (or have already dropped out) of school. E2S beneficiaries receive text books and other learning tools, counseling for home and school, confidence-building workshops, and much more.

Currently, 666 students are enrolled in the program. With your help, we'd like to increase that number to 1,000 in the 2019-20 school year.

Want to meet our beneficiaries? [Visit our blog](#) to hear four of their stories, and see how E2S is making a positive difference in their lives.
