

HELP US BRING LIGHT TO RURAL INDIA

Our Healthcare 2 Unreached Signature Program delivers life-saving resources to India's most vulnerable individuals.

This year, consider celebrating Diwali with a donation to Share & Care's Healthcare 2 Unreached Signature Program. H2U brings medical services and education to some of rural India's poorest individuals, with an emphasis on improving conditions for women and children.

Of the many health challenges facing villagers in rural India, iron-deficiency anemia — which disproportionately affects women and children — is among the most prevalent. In addition to causing common symptoms like fatigue and dizziness, anemia is also responsible for high rates of infant and maternal mortality throughout many remote areas.

However, through our H2U program (and with the help of local NGOs), we have the opportunity to create lasting change.

To read about how we're combating rural India's anemia crisis, visit the Share & Care blog.
