

# INTERNATIONAL LITERACY DAY

## Children in India deserve better.

Today is International Literacy Day, an occasion that shines a spotlight on global literacy needs.

In India alone, millions of children drop out of school before reaching the secondary level — usually due to poverty, neglect, or discrimination. Dropping out severely hinders students' abilities to become literate, which in turn prevents them from breaking free of the hardships their families have faced, often for generations.

**But together, we can address the drop-out crisis and bring literacy to kids who need it most.**

Our Educate 2 Success Signature Program provides educational tools and resources, plus counseling and personal development workshops, to children in India's most marginalized communities.

We've already brought hope — and proven transformations — to hundreds of children and families. With your continued support, we can help even more.

If you believe every child deserves access to a basic education, please join us in celebrating International Literacy Day with a contribution. Remember, your gift can change a life.
