

RESHAPING EDUCATION

GIVING
TUESDAY

This Giving Tuesday, we are showcasing the students and teachers in underserved communities across India who are reshaping education.

Most of these students had never touched a computer. There are no internet cafés, and their families couldn't afford the fee even if there was.

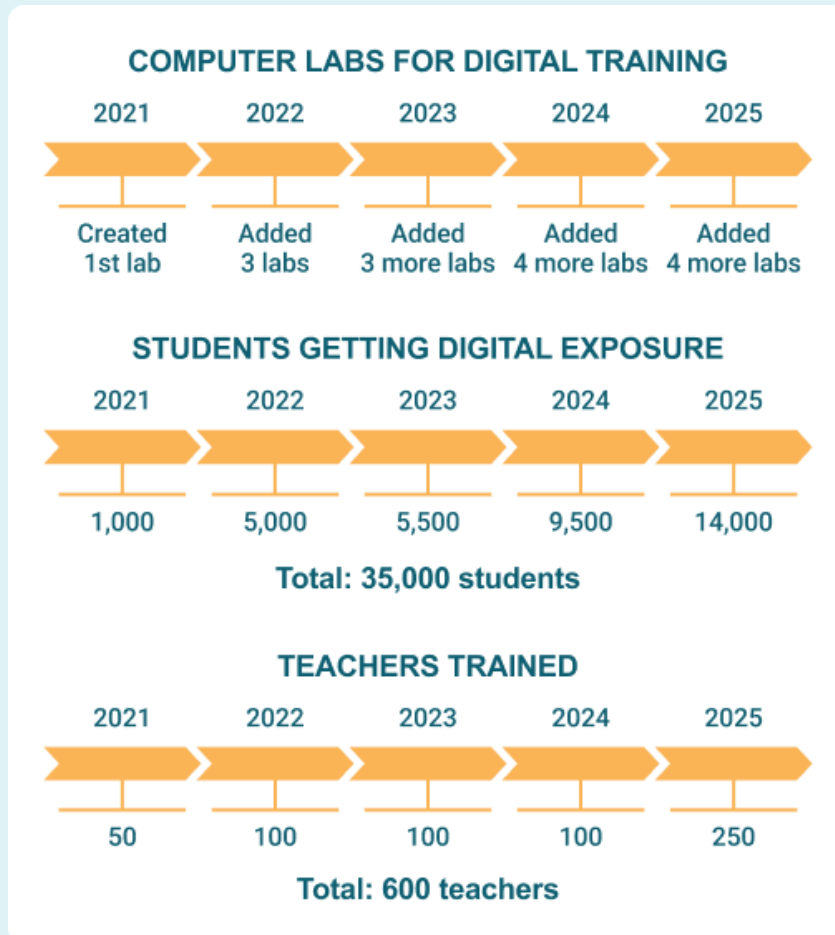

Today, they're teaching their grandmothers how to video call with relatives. They're creating presentations for class projects. They're exploring the world through Google Earth, planning imaginary trips to places they're learning about in geography.

MAKE A DONATION

What changed? A digital lab came to their school.

Through our Educate 2 Success program, in partnership with the Y4D Foundation, we're bringing the future to students who've been left behind by the digital revolution. Across Maharashtra, Gujarat, and Uttar Pradesh, we've established 15 fully equipped digital learning labs in government schools — complete with computers, smartboards, and vibrant learning spaces designed for discovery.

But here's what makes this truly transformational: we're not just installing equipment and walking away. We're training teachers, many of whom admitted they were “terrified” of technology, but are now confidently guiding their students through coding basics and digital research skills.

The impact?
35,000 students empowered. 600 teachers trained. Countless futures reimaged.

We'd love for you to see this transformation for yourself. We have a short 3-minute video that captures the energy, curiosity, and pure joy happening in these classrooms. [Watch the Video»](#)

As digital literacy becomes as fundamental as reading and writing, every child deserves access to these skills — not just those in well-funded schools. Together, we're bridging that gap, one lab and one student at a time.

This Giving Tuesday, would you consider sharing this story with someone in your network? Forward this email, share the video on social media, or simply tell a friend about the transformation happening in these classrooms.

MAKE A DONATION

Every share and donation helps us reach more supporters who can help us bring digital labs to even more schools.

With gratitude,

The Share & Care Foundation
